

Poll Group: District 6 (2 candidates)

Alicia Oliveira

BIOGRAPHICAL SUMMARY

Employment history (Begin with your most recent employment and list all others. If you are not working, please type "N/A" in the appropriate space.)

Job Title	Employer	Start/End Date
Registered Kinesiologist	Woodstock Hospital	June 2020

Previous participation in professional associations (related to kinesiology)

Position	Association/Organization	Start/End Date
Non council committee member	College of Kinesiologists of Ontario	2019/2020

Other community involvement (not related to kinesiology)

Position	Association/Organization	Start/End Date

Candidacy Statement:

Based on my previous experience working collaboratively with members of the College under the Quality Assurance Committee I feel I have demonstrated professionalism, competency and sensitivity with decision-making related to the profession of Kinesiologists. I am committed to providing exceptional insight into the profession of Kinesiology and would take this opportunity to continue sharing and collaborating with the committee and council members of the college respectfully.

Alyssa King

BIOGRAPHICAL SUMMARY

Employment history (Begin with your most recent employment and list all others. If you are not working, please type "N/A" in the appropriate space.)

Job Title	Employer	Start/End Date
R.Kin	north Lambton Community Health Centre	2021-Present
R.Kin	Contractor	2021-2021
Exercise Program Consult	Huntercombe (United Kingdom)	2016

Previous participation in professional associations (related to kinesiology)

Position	Association/Organization	Start/End Date
N/A		

Other community involvement (not related to kinesiology)

Position	Association/Organization	Start/End Date
N/A		

Candidacy Statement:

I have been a Registered Kinesiologist for 10 years with a background in Orthopedic, Neurological, and Pulmonary rehabilitation.

I am running for Council because I want to help maintain the public's trust in the Kinesiology profession, which can benefit their health and wellbeing. In my view, being a regulated health profession is valuable to its members, but especially to the public. There is value in the competency of health professionals and being able to treat the public without harm. I believe regulation of the Kinesiology profession is a part of retaining that value.

My hope is to contribute as a council member to the College's efforts to reach the strategic goals. The goals aim to protect the public by reducing risk of harm and promoting competent and ethical kinesiology practice.

Volunteering my time to the College's Registration and Discipline Committee has allowed me to understand the legislation, by-laws and policies that govern and guide College action. Furthermore, contributing to Committee panels allowed me share in the dynamic decision-making process; a process that considers actions, limitations, repercussions, fairness, and transparency of its decisions to the public, applicants, and members. The acquired knowledge and skills will allow me to make

relevant contributions to Council.

Prior to participating with College Committees, some of my clinical work experience included liaising and cooperating with multiple departments and disciplines. I have experience adhering to policy and procedure while planning and executing events and activities. I learned to navigate regulations and reach a goal within the context of the law. I aim to bring this experience and collaboration to the Council.

If I am elected Council member for District 6, I would be happy to contribute my knowledge and experience to further the College's effort to protect the public we serve.
